190 Oakwood Drive, Wayne, NJ 07470  
(973) 633-3170

---

Dear Parents/Guardians,

*Children **transitioning** from Preschool to Kindergarten in September will require:*

As per the New Jersey State Sanitary Code, Chapter 14 Immunization Requirements, your child will require boosters to his/her DTP / OPV/ and MMR vaccinations between the ages of four and five years old, as well as a series of Hepatitis B and Varicella immunizations.

*Students **continuing** Preschool in September will require a flu shot, between September 1 and December 31.*

All students should have a yearly physical.

Please submit an **updated immunization form as well as a report of a physical exam** for your child prior to the start of school in September. Please send this to the school your child will be attending in September.

Your **Kindergarten** child will need to have immunizations up-to-date in September and **Preschool** children need to have flu shots documented before December 31, 2017 to avoid any issues of exclusion from school.

If you have any questions or need further information, please call my office at any time at 973-633-3170. Thank you for your cooperation.

Sincerely,

*Mrs. Aimee Bongiovanni, RN*  
*Packanack School Nurse*
